學術演講公告

## **Innovation-Driven Competitiveness in an Ultra-Competitive World**

**Speaker : Dr. Ben Wang**

Chief Manufacturing Officer, Georgia Tech

Executive Director, Manufacturing Research Center

Gwaltney Chair in Manufacturing Systems, School of Industrial & Systems Engineering

**Date : 10:00am~11:30am, May 2 (Wed.), 2012**

**Place : Room 106, Engineering Building I, National Tsing Hua University**

### **ABSTRACT**

The presentation consists of three integral components: 1) clarification of some myths about innovation and ways to become more innovative, 2) career growth and competitiveness, and 3) integration of the two previous topics. Target audiences include undergraduates, graduates and post-doctoral researchers. There will be plenty of time set aside for Q&A.

### **Speaker's Short Bio**

Dr. Ben Wang is Georgia Tech's Chief Manufacturing Officer and Executive Director of Manufacturing Research Center, and holds the Gwaltney Chair in Manufacturing Systems in the School of Industrial and Systems Engineering, No. 1 ranked IE department by the US News and World Report. As Chief Manufacturing Officer of GT, he is responsible for the development of a coherent, campus-wide strategy for all manufacturing related R&D and the execution of that strategy. He is a Fellow of the Institute of Industrial Engineers, Society of Manufacturing Engineers, and the Society for the Advancement of Material and Process Engineering. He has published about 200 articles in refereed journals and has a portfolio of 25 patents or patent applications.
