

Chun-Hsien Chen, Ph.D.

Chun-Hsien Chen is Associate Professor (tenured) and the Director of Design Stream in the School of Mechanical & Aerospace Engineering, Nanyang Technological University, Singapore. He received his BS degree in Industrial Design from National Cheng Kung University, Taiwan, MS and Ph.D. degrees in Industrial Engineering from the University of Missouri-Columbia, USA. He has several years of product design & development experience in industry. His teaching and research interests are in collaborative/human-centric/consumer-oriented product design and development, knowledge engineering, design sciences, decision support systems and artificial intelligence in product/engineering design. He has more than 120 publications in these areas.

Dr. Chen is/was an editorial board member of *Advanced Engineering Informatics* (Apr 2005 – Dec 2009), *Recent Patents on Engineering* (since 2007) and *Journal of the Chinese Institute of Industrial Engineers* (Jan 2005 – Dec 2006), and an *Associate Editor* of *Advanced Engineering Informatics* (since Jan 2010). He will be **Editor-in-Chief** of *Advanced Engineering Informatics* from Jan 2013 onwards. He is/was a **Shanghai Eastern Scholar** (上海東方學者/上海海事大學東方講座教授, since 2011), a Visiting Professor of National Cheng Kung University (2011), a Guest Professor of Shanghai Maritime University (since 2006), and Chaoyang University of Technology (2008 - 2010). Dr. Chen has been frequently invited to visit a number of universities in different countries, such as Taiwan, China, Japan, Korea and Mexico. He has also been frequently invited to deliver speeches, lectures and conduct short courses at international conferences, forums, workshops in Singapore and other countries.
